

CLEANROOM APPAREL

SUITE® STERILE FACEMASKS

DESCRIPTION

The Suite® Sterile Facemasks are full coverage 9 inch wide facemasks made from extremely soft materials for greater operator comfort while still maintaining their clean properties. They have a low Delta P rating for superior breathability and an excellent bacteria filtration efficiency. The masks are validated sterile to a 10^{-6} sterility assurance level in accordance with AAMI guidelines. These facemasks are made in the USA.

PRODUCT INFORMATION

Part Number: A-4FM9S

Color: White

Construction: Pleated with Ties

Materials:

- **Outerfacing:** 100% Polyester
- **Filter Media:** White Melt-Blown Polyester
- **Inner Facing:** 100% Polyester
- **Nosepiece:** Flat aluminum wire
- **Ties:** Dupont® Sontara Polyester

Packaging: Individually packaged. 25 per double bagged pack, 12 packs per case.

STERILIZATION INFORMATION

Location: Steris, Libertyville, IL

Method: Gamma Irradiation

Validation: AAMI/ISO Method I

Min Dose: 28.6 kGy

Max Dose: 50.0 kGy
